

Amazon Sales Analysis

Power BI Data Analytics Project — Sales performance, time-based trends
& interactive KPI reporting

2019–2022

POWER BI

Dataset & Business Scope

Amazon_Data Table

- Order Date · Price(Dollar)
- Product Category · Description
- Shipment · Number of Reviews

Business Questions

- How much was sold?
- Which months/weeks perform strongly?
- Which categories & products contribute most?

Project Workflow

Data Prep

Load dataset, verify fields

Data Modeling

Build Date Table, establish relationships

Time Intelligence

Month, Quarter, Week, Year fields

DAX Measures

Total Sales, QTD, YTD KPIs

Dashboard

KPIs, trends, category & Top 5 charts

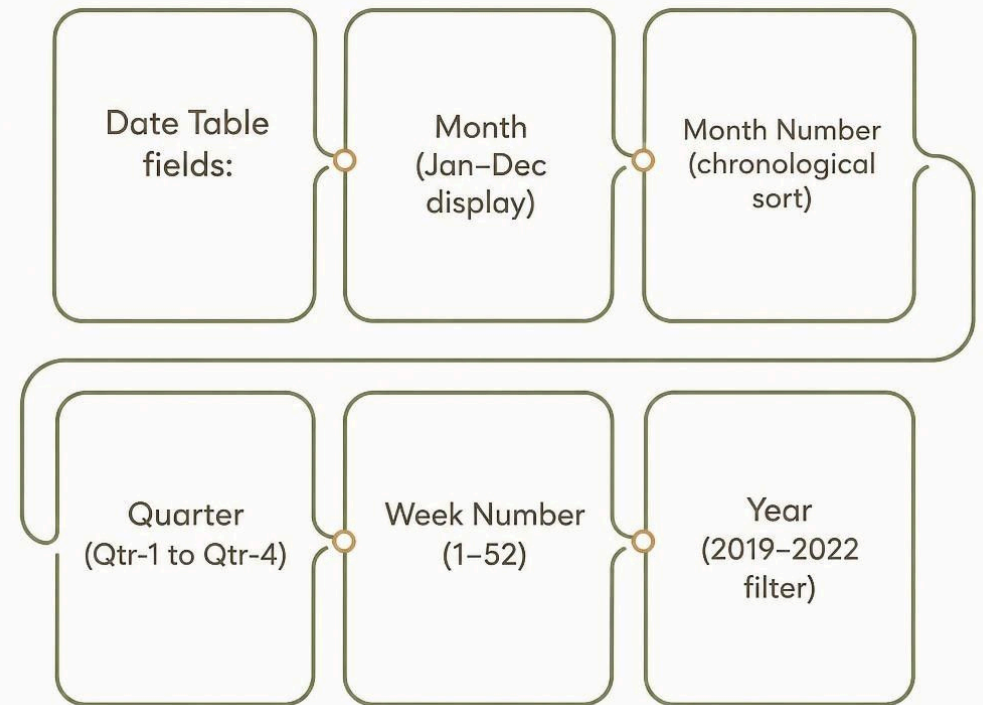

Data Modeling

Date Table

Created from min/max Order Date

```
Date Table = CALENDAR(
    MIN('Amazon_Data'[Order Date]),
    MAX('Amazon_Data'[Order Date])
)
```

📅 Month sorted by Month Number → Jan → Dec order

DAX Measures & KPI Logic

Measure	Logic	Use
Total Sales	SUM(Price)	Overall revenue
YTD Sales	TOTALYTD(SUM(Price), Date)	Year-to-date
QTD Sales	Quarter-to-date	Quarterly KPI
YTD Products Sold	YTD product quantity	Volume KPI
YTD Reviews	YTD review count	Engagement KPI

 Total Sales & YTD Sales are separate to prevent multi-year filter confusion

Dashboard KPIs

\$8.42M

Total Sales

\$811K

QTD Sales

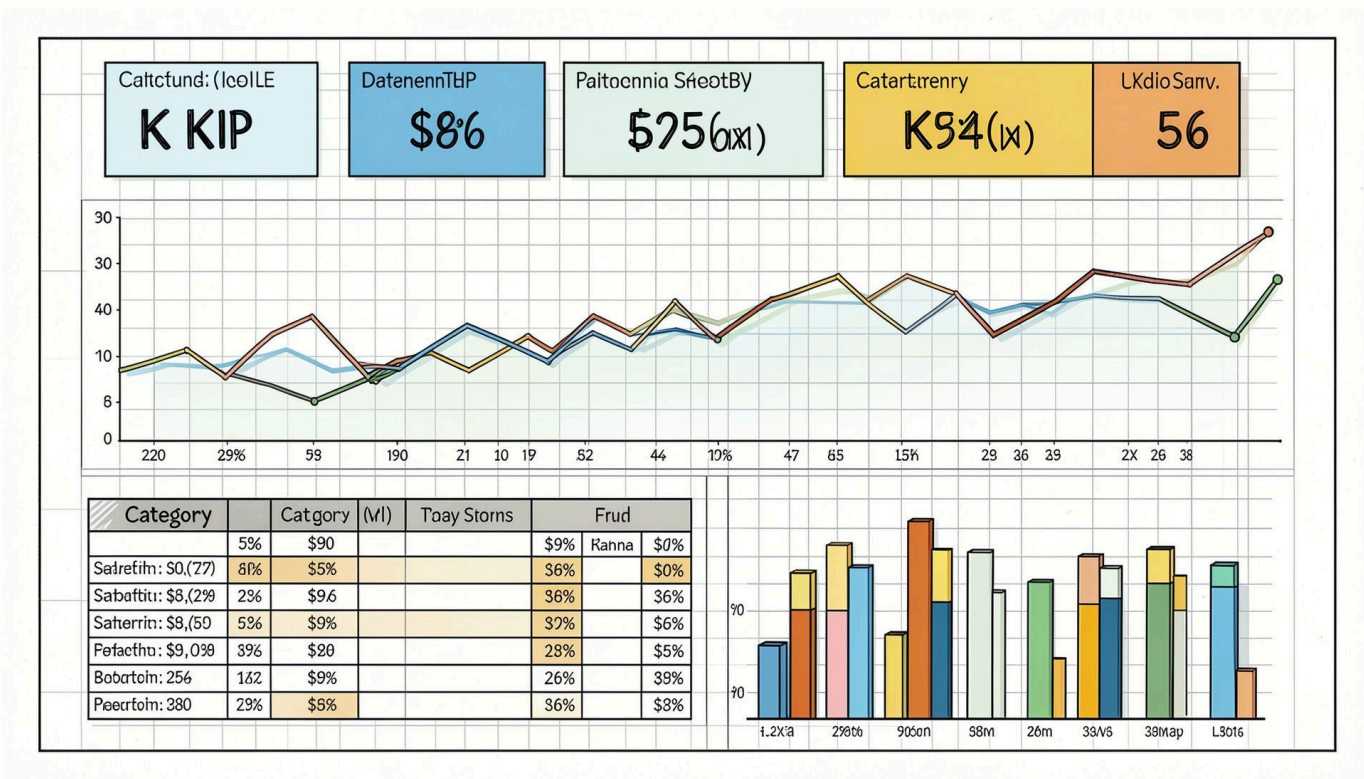

27.75K

YTD Products Sold

19.42M

YTD Reviews

Dashboard Visual Design

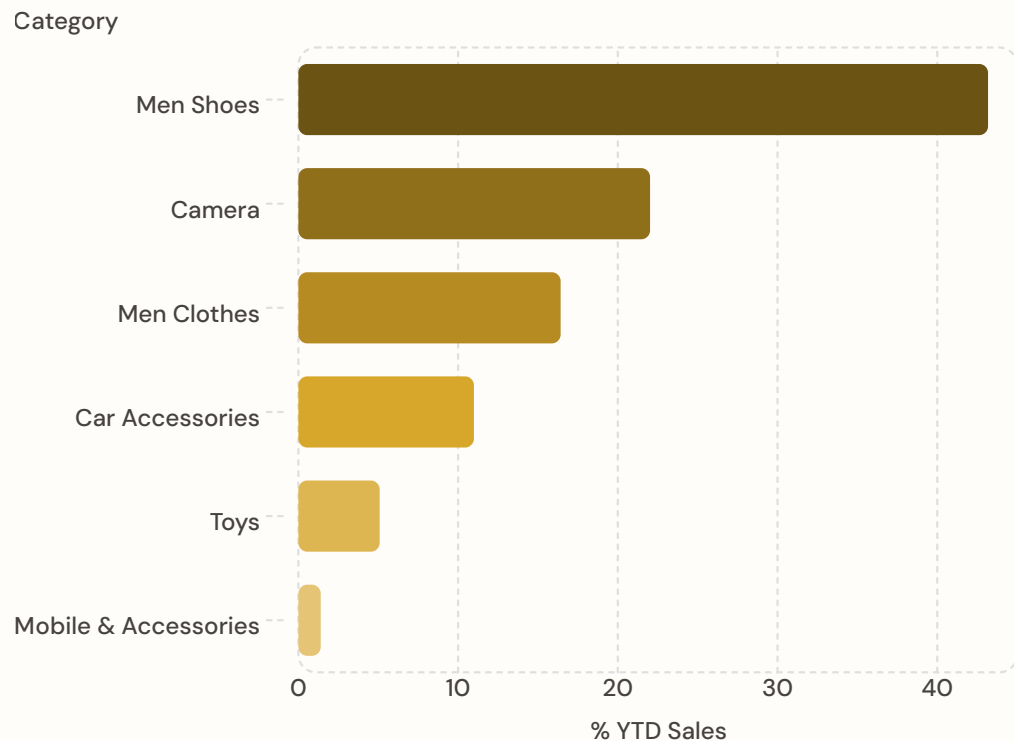

Visual Layout

- **Top:** KPI cards for immediate visibility
- **Middle:** Monthly & weekly trend charts
- **Bottom:** Category table & Top 5 products

Interactive Filters

- Product Category
- Quarter
- Year (multi-select)

Key Insights

Seasonal Peaks

Sales rise in **September** and **Nov-Dec**; February is lower.

Top Products

- #1 YTD Sales: ~\$34K
- #1 YTD Reviews: ~0.40M

Business Recommendations

1

Prioritize High-Contribution Categories

Focus inventory & promotions on top categories

2

Plan Around Seasonal Peaks

Align marketing with Sep & Nov–Dec trends

3

Study Top 5 Product Drivers

Analyze pricing & characteristics of top sellers

4

Use Review Volume as Signal

Monitor high-review products for engagement opportunities

5

Leverage Slicers

Compare performance across segments & periods

Conclusion

End-to-end Power BI workflow — from raw Amazon data to an interactive, recruiter-ready dashboard.
